

MILLER HYBRIDS YOUR SUCCESS STARTS HERE.

1213 LARCH AVENUE, KALONA, IA 52247 | 319.656.2532 | 866.946.CORN | MILLERHYBRIDS.COM

Hybrids or Varieties marked RX are licensed by Roeschley Hybrids 8222 East 1500 North Road Graymont, IL 61743. Miller Hybrids is an authorized distributor of Roeschley Hybrids.

M92-57 92 DAY

AVAILABLE TECHNOLOGY
ORG

STALK STRENGTH	6
ROOT STRENGTH	6
STAYGREEN	7
DROUGHT TOLERANCE	8
SEEDLING VIGOR	9
SILAGE QUANTITY	6

Rating Scale: 9 = Excellent, 1 = Fair

- » Flexes ear for high yields
- » Handles variable soils well
- » Lots of consistency and guts
- » Excellent early emergence and early growth
- » Drought tolerant

M95-57 95 DAY

AVAILABLE TECHNOLOGY
ORG

STALK STRENGTH	7.5
ROOT STRENGTH	8
STAYGREEN	7
DROUGHT TOLERANCE	7
SEEDLING VIGOR	8
SILAGE QUANTITY	6

Rating Scale: 9 = Excellent, 1 = Fair

- » Very good stalks and roots
- » Great yield potential and test weight
- » Widely adapted
- » Very good emergence

RX97-40 97 DAY

AVAILABLE TECHNOLOGY
CONV, G

STALK STRENGTH	8
ROOT STRENGTH	9
STAYGREEN	6
DROUGHT TOLERANCE	8
SEEDLING VIGOR	8
SILAGE QUANTITY	7

Rating Scale: 9 = Excellent, 1 = Fair

- » Very good drought and stress tolerance for tough soils
- » Strong emergence and early vigor
- » Excellent yield across most soils
- » Anthracnose tolerance and great standability

M00-25 100 DAY

AVAILABLE TECHNOLOGY
ORG

STALK STRENGTH	6
ROOT STRENGTH	9
STAYGREEN	4
DROUGHT TOLERANCE	6
SEEDLING VIGOR	6
SILAGE QUANTITY	6

Rating Scale: 9 = Excellent, 1 = Fair

- » Excellent yield in average to good soils
- » Stands well and dries fast
- » Flowers late for maturity
- » Medium size stature
- » Moves west and north well

M06-42 106 DAY NEW

AVAILABLE TECHNOLOGY
ORG

STALK STRENGTH	8
ROOT STRENGTH	8
STAYGREEN	7
DROUGHT TOLERANCE	7
SEEDLING VIGOR	8
SILAGE QUANTITY	7

Rating Scale: 9 = Excellent, 1 = Fair

- » Excels on less productive soils
- » Excellent emergence and seedling vigor
- » Dual purpose organic hybrid
- » Healthy with great standability
- » Consistent across years and zones

M10-54 110 DAY

AVAILABLE TECHNOLOGY
ORG, CONV

STALK STRENGTH	7
ROOT STRENGTH	8
STAYGREEN	6
DROUGHT TOLERANCE	7
SEEDLING VIGOR	7
SILAGE QUANTITY	7

Rating Scale: 9 = Excellent, 1 = Fair

- » High yielding hybrid with stability
- » Very good early growth
- » Lower test weight but great feed quality
- » Great response to fungicide, especially if NCLB present
- » Excellent roots

M11-66 111 DAY

AVAILABLE TECHNOLOGY
CONV, ORG

STALK STRENGTH	7
ROOT STRENGTH	7
STAYGREEN	7
DROUGHT TOLERANCE	7
SEEDLING VIGOR	8
SILAGE QUANTITY	6

Rating Scale: 9 = Excellent, 1 = Fair

- » Impressive yield stability and stress tolerance
- » Well adapted for no-till operations
- » Particularly good root anchorage and plant health
- » Medium-small plant with medium-low ear
- » Handles high density with pineapple leaf structure
- » Use block planting or double border rows to accurately measure yield

M15-13 115 DAY NEW

AVAILABLE TECHNOLOGY
ORG

STALK STRENGTH	9
ROOT STRENGTH	9
STAYGREEN	9
DROUGHT TOLERANCE	8
SEEDLING VIGOR	7
SILAGE QUANTITY	9

Rating Scale: 9 = Excellent, 1 = Fair

- » Superior agronomic package with great stalks and roots
- » Consistent yield with food grade grain quality
- » Unmatched fall appearance
- » Large plant with medium ear placement
